

› TANDEM AXLE TRAILER KIT

IDEAL FOR Manufacturers of road trailers used for larger heavier loads like digger trailers, car transporters and livestock trailers. Add corner steadies for extra stability when parked.

3500kg Tandem Axle with Drum Brakes

Kit: TB350013G

All the key components you need for manufacturing a sprung tandem axle trailer with drum brakes for road use. Suitable for a trailer of up to 3500kg GVM*.

Comes with inertia controlled braking system that removes the need to get out of the cab and adjust the trailer before reversing. KNOTT Drum brakes are known for their braking force and longevity.

- › Delivered in one package ready for use
- › EASY HUB no mess low maintenance bearing system
- › Smooth braking performance
- › Robust and reliable Knott coupling and jockey wheel
- › No hydraulics
- › No exemption required
- › No electrics or batteries required
- › Tried and trusted components

1	Pair Trailer Lighting Sidemarker Lights Amber LED	2	Hub Assy 10" KNOTT Drum Brake Left Axle
		2	Hub Assy 10" KNOTT Drum Brake Right Axle

KNOTT

KNOTT COMPONENTS

KNOTT is one of the worlds largest trailer component manufacturers, and unlike most, they offer complete systems with accessories and spares to match.

Originally started in Germany, KNOTT designs and manufactures from plants across Europe and North America. The components meet and often exceed European safety standards.

EASY HUB

THE EASY HUB ADVANTAGE

CAR BEARING TECHNOLOGY APPLIED TO TRAILERS

No maintenance, and no greasing for a fuss free build and ownership.

- Stainless & waterproof version, or waterproof only
- Sealed-for-life bearing to ensure extended usage time
- European design and manufacture

EASY AND CONVENIENT

TRAILER KITS are the most convenient way to source the key parts you need for your trailer build, either for a one-off job or in a manufacturing production line. Have confidence that all the components you need work together, have been tested over time together, and are delivered together. The convenience of a kit makes for a simpler, faster, stress-free trailer build.

With over 40 years' experience in trailer components and wheels, Treadway has become a trusted partner in the supply chain of many manufacturers.

Talk to us about how we can help you with your trailer build.

*GVM - Gross Vehicle Mass, the maximum weight the trailer can weigh fully loaded including the weight of the trailer itself.
